

K-LOVE is an important part of the community as my children (I am a school teacher and church member), my family, and I listen to it for uplifting and motivating music. It encourages peace instead of violence and makes our community a better place. If it is taken from us, our children will likely be influenced to be less giving and more violent and selfish citizens. Please don't let it be blocked or taken from us. Thank you! Without it, we would rarely listen to the radio, if ever!
